1970

SUBJECT INDEX

ABOMASAL displacement, left, in cattle; complicating factors and post-operative course in fifty cases, 194
Acrosomal abnormality in ram spermatozoa due to heat stress, 440
Aelurostrongylus abstrusus infestation, influence on pulmonary vasculature of cat, 202
Ammonium-chloride induced acidosis, effect on calcium metabolism in ruminants, 531
Ancylostoma caninum, efficacy of various anthelmintics against parasitic larval stages in *Mastomys natalensis*, 427
Aujeszky's disease (pseudorabies), experimental, in rats, 173
BEHAVIOUR of horses recovering from anaesthesia, the, 617
Biochemical screening in dogs, utility of. I. Normal ranges, 230
Blood acid-base parameters in ruminants, assessment of, 325
Blood coagulation: comparative studies in dogs, cats, horses and cattle, 512
Blood and marrow picture of the cat, 459
Blood pH, pCO_2 and plasma bicarbonate index values, alterations to during metabolic acidosis occasioned by neonatal diarrhoea in thoroughbred foals, 82
Bone in pigs, spontaneous lesions, incidence of, 306
Book Reviews—
Abnormal behaviour in animals (ed. M. W. Fox), 54
Adaptation of domestic animals (ed. E. S. E. Hafez), 276
Annual report of studies in animal nutrition by the Rowett Research Institute, Vol. 24, 1968, 501
Antibiotics in animal husbandry and veterinary medicine, Report of Joint Committee on use of, 275
Artificial insemination of farm animals, 4th revised edn. (ed. E. J. Perry), 390
Atlas of the brains of domestic animals (Tetsuo Yoshikawa), 276
Behaviour of domestic animals, The, 2nd edn (ed. E. S. E. Hafez), 502
Chimpanzee: central nervous system and behaviour; a review (ed. H. H. Reynolds) (Primates in Medicine, Vol. 4), 502
Control of the ovarian cycle in the sheep (ed. T. J. Robinson), 390
Egg quality: a study of the hen's egg (ed. T. C. Carter), 55
Farm as a business, The, Vol. 3: Aids to management—sheep, 504
Genetics and animal breeding (I. Johansson and J. Rendel), 452
International encyclopaedia of food and nutrition, Vol. 17. Nutrition of animals of agricultural importance. Pt. I: The science of nutrition of farm livestock. Pt. II: Assessment of factors affecting requirements of farm livestock (ed. Sir D. Cuthbertson), 559
International Zoo Yearbook, Vol. 9 (ed. J. Lucas), 391
Management of a laboratory breeding colony—*Macaca mulatta* (D. A. Valerio, R. L. Miller, J. R. M. Innes, K. D. Courtney, A. J. Pallotta and R. M. Guttmacher), 503
Non-protein nitrogen in the nutrition of ruminants (J. K. Loosli and I. W. Macdonald), 560
Parasitology for veterinarians (J. R. Georgi), 503
Practical meat inspection (A. Wilson), 54
Prenatal and postnatal mortality in cattle—Report of Committee on Animal Health, N.R.C. Washington, 560
Scientific basis of drug dependence (ed. Hannah Steinberg), 559
Using primates in medical research (ed. W. I. B. Beveridge). Primates in Medicine. Vol. 2, Pt. I. Husbandry and technology. Vol. 3, Pt. II. Recent comparative research, 392
Vitamins in health and disease: a modern reappraisal (J. Marks), 391
Bovine immunoglobulin, quantitative studies. II. Plasma immunoglobulin levels in market calves and their relationship to neonatal infection, 30
Breeding ewes, routine treatment with 2-iodo-4-cyano-6-nitrophenol (Nitroxynil), 487
Bright blindness in sheep—relationship to environment, 482
Brucella melitensis infection in female kids born into a heavily infected environment, 61
CERVIX uteri of cattle, anomalies of, 347
Chloramphenicol, effects on haemopoietic system of cat, further observations, 453
Contrast pleurography in rhesus monkeys (*Macaca mulatta*), 57
Coryneform organisms, isolation from cow fore-milk samples, 210
DEHYDRATION, rehydration and overhydration, effects on blood and urine of oxen, 121
EDTA concentration, effect of on packed cell volume of domesticated animals, 383
Escherichia coli disease in the piglet: a pathological and bacteriological investigation, 444
Exudative epidermitis of pigs. Serological identification and distribution of the associated staphylococcus, 225
Fasciola hepatica, effect of splenectomy on pathogenicity in sheep, 15
Fasciola hepatica L., studies on pathogenicity of massive infections in lambs, 543
Fascioliasis: Assessment of molluscicide N-tritylmorpholine in control of in N. Ireland, 282. Stormont "Wet Day" forecasting system for, 401
Fertility effects of exposure of male rabbits to high temperature, 168
Fluid and electrolyte metabolism of neonatal pigs, 465
Foals, alterations in blood values during diarrhoea, 82
Food intake, voluntary, of pregnant and lactating ruminants: a review, 1
Foot-and-mouth disease: Editorial, 113. Definition of problem and views on solution, 115. Epidemiological studies of the 1967–68 epidemic. The possible spread of infection by farm rats (*Rattus norvegicus*), 368
Fore-milk samples: Isolation of coryneform organisms from, 210. Total somatic cell count related to bacterial growth from, 254
Gallus domesticus, histology of lung, observations, 89
HALOXON, efficiency against some sheep gastrointestinal nematodes in a coastal region of Tanzania, 420
High temperature exposure of male rabbits, fertility effects, 168
Hyostrongylus (nematode) larvae, liveweight gain of growing pigs experimentally infected with massive doses, 579

Hyostrongylus rubidus, experimental and field infections of pigs with, observations, 538
Hypomagnesaemia in milk-fed calves, effect of ingestion of peat and wood shavings on incidence, 505
Hypovitaminosis-A, ocular changes associated with in cattle, 561
Hypovitaminosis-D in yearling cattle, osteodystrophy associated with, 316
IMMUNOGLOBULINS, bovine, quantitative studies: II. Plasma immunoglobulin levels in market calves and their relationship to neonatal infection, 30
Initial Reports—
Acquired immunity to *T. axei* infections in calves, xxi (June)
Aplasia of a ramus of the mandible in a cat, iii (Jan.)
Avian infectious bronchitis in Hong Kong, xxxviii (September)
Breeding performance of two breeds of ewes in equatorial environment, vii (April)
Failure of rimino Phenazine B663 (G30320) to reduce level of experimental *Mycobacterium johnei* infection in calves, v (March)
Fasciola hepatica infections in cattle, economics of, xiii (April)
Incidence of species of genus *Capillaria zeder* 1800 (nematode) in chickens in Iran, i (Jan.)
Inhibition of development of *Cooperia oncophora* in calves, observations, xxxv (September)
Lymnaea truncatula habitat areas: In Co. Down, x (April). In Co. Tyrone and Co. Fermanagh, N. Ireland, xxix (August)
Milk secretion in the goat, effect of dehydration and intravenous infusion of vasopressin, xxv (July)
Pathogenic bacteria in cattle slurry, further examination of survival, xxxii (August)
Porcine polioencephalomyelitis associated with a serological response to porcine enterovirus F.26 in Tasmania, xix (June)
Solids-not-fat content of milk in cattle, influence of age and mastitis on, xvi (April)
Intersexuality in the horse with Type 2A+ XXXY chromosome formula, case of, 522
Intramammary infections, pathogenic significance of various, 260
MAEDI of sheep in India, clinical pathology of, 364
Magnesium and neuromuscular irritability in calves with particular reference to hypomagnesaemic tetany, 333
Micrococcaceae survival in bovine teat canal keratin, 268
Molluscicide N-tritylmorpholine, assessment of in control of fascioliasis in N. Ireland, 282
Morantel, anthelmintic, controlled laboratory trials in sheep, 142
Mucosal surface patterns of the small intestine of grazing lambs, 357
Multiple fistulation of the horse's large intestine, 604
Mycoplasma gallisepticum infected chickens, development of non-infectious carrier state, 216
NECROTIC enteritis of pigs caused by infection with *Oesophagostomum* spp, 526
Nutritional balance trials in calves experimentally infected with *Trichostrongylus axei*, 393
OCULAR changes associated with hypovitaminosis A in cattle, 561
Oesophagostomum spp, necrotic enteritis of pigs caused by infection with, 526
Osteodystrophy associated with apparent hypovitaminosis-D in yearling cattle, 316
PIGLET mortality, evidence of sire effect on, 94
Plasma standard bicarbonate and chloride concentrations in cattle and sheep, 409
Pulmonary adenomatosis, clinical, produced experimentally in sheep, 185
Pyrantel tartrate, controlled laboratory trials in cattle, 134
RAM spermatozoa: Acrosomal abnormality in, due to heat stress, 440. Morphological changes in, due to hot-room exposure, 277
Respiratory variations of blood pressure in the ox (*Bos taurus*) during panting, 652
Salmonellae on a poultry farm, probable sources, 180
Salmonella infections: In dogs and cats in the Sudan, 607. In wild animals in Khartoum, Sudan, 302
Salmonellosis in the horse, 100
Serum adenosine deaminase activity: In normal cattle, 68. In experimentally produced liver diseases of cattle and sheep: yellow-wood, lantana, carbon tetrachloride and chronic copper poisoning, 74
Serum protein electrophoregram in the thoroughbred in Bogota, Columbia, 574
Short Communication—
Dichlorvos (V3 formulation), efficacy against larval and adult *Hyostrongylus rubidus*, xliii (October)
Epitheliogenesis imperfecta in lambs and kittens, xlvii (December)
Somatic cell count and bacterial growth in milk, xlv (November)
Society for Veterinary Ethology, Proceedings: June 1969, 495. December, 1969, 656
Spermatozoa of a stallion (*Equus caballus*), an abnormality of, 476
Splenectomy, effect on pathogenicity of *Fasciola hepatica* in sheep, 15
Spontaneous lesions of bone in pigs, incidence of, 306
Staphylococcal infection of dairy cow, value of hygienic measures in control of, 106
Stillbirths in cattle, 238
Stillbirth in the pig: an analysis of the breeding records of five herds, 593
Stormont "Wet Day" forecasting system for fascioliasis, 401
Sulphonamide resistance of Salmonellae isolated from farm and other animals, 297
Sulphur, sodium chloride and nitrogen supplements, influence on nitrogen balance of merino sheep in N.W. Australia, 470
Sweating, panting and body temperatures of newborn and one-year-old calves at high environmental temperatures, 45
TEACHING of poultry diseases, The, 12
Trace mineral composition of heavily fertilized grass in relation to A.R.C. standards for requirements of dairy cows, 38
Trichostrongylus axei infections: In calves, observations using abomasal and intestinal cannulae, 149. Nutritional balance trials in experimentally infected lambs, 159. Nutritional balance trials in experimentally infected calves, 393. In seven-month-old lambs, investigation of acquired immunity in, 648
Trypanosome infections in domestic cattle and wild animals in areas of East Africa, survey. I. Introduction, 622, II. Salivarian trypanosome infections in wild animals in Busoga District, 627, III. Salivarian trypanosome infections in cattle in relation to the *Glossina* distribution in Busoga District, 634. IV. Stercorarian trypanosome infections in cattle and wild animals in East Africa, 642
Tuberculosis in baboons, early clinical diagnosis of, 372
ULTRASTRUCTURE of white blood cells and thrombocytes of the domestic fowl, 583
